Thank you for your inquiry into the Silver Streak Family of Fine Travel Homes.

We have been manufacturing the finest aluminum aircraft constructed travel homes for over 35 years here at our location in South El Monte, a suburb of Los Angeles.

We offer the most comfortable and utilitarian travel home in the market. Over 60% of our nearly 2000 owners live in their units the year round.

Our travel homes are equipped to provide comfort and livability in most climates. The virtues of anodized aluminum reflect the hot summer sun away from the interior, and yet retain inside warmth during those cold winter months.

A 2" thick blanket of R-7 fiberglass insulation totally wraps the inner skin completely around the home. Water tanks are also protected with this insulation. Our use of only the finest materials insures a lifetime of trouble free travel or stationary living.

We offer our standard travel homes in 29'11", 31'11", and 34'11" lengths. Our maximum hitch weight is 700 pounds. Television cabinet, separate dining room, and awning are standard equipment in our 34'11" model.

The all new 1984 Super Streak 5th Wheel, 35' in length, is the crowning achievement in mobile living. The 5th Wheel offers living enjoyment found only in select \$100,000.00 motorhomes.....280 square feet of total elegance. The Super Streak has no peer.

Owning a Silver Streak Travel Home is a lifestyle of traveling elegance.

We invite you to view and enjoy the Quality of Silver Streak at any of our dealers noted on the enclosed list. See for yourself why Silver Streak has been labeled the "State of The Art" Travel Home.....

Sincerely,
