Over forty years ago, Silver Streak began the assembly of its first travel trailer, using aircraft design construction methods which became the hallmark of its new famous line of quality recreation vehicles. Ever since, the Silver Streak name has enjoyed a consistent reputation for uncompromising quality in its products. Silver Streak owners overwhelmingly praise their travel trailers as the finest in the world.

The Sterling line of models today is everything a Silver Streak should be, and yet remains as individual as its master. From the windswept exterior lines to the bright colors of its living areas, Sterling combines the ultimate in evolutionary progress in its products, unexcelled in value.

If you are the type of discriminating individual who is unwilling to compromise on matters of personal taste and lasting value, we invite you to request an appointment for a private showing of a Sterling at your earliest convenience.
